- Competitors are to leave their karts on their kart stands and wait in their earned position on the false grid.
- Once the track is ready, all competitors will walk in starting formation with their karts on the stands to the short straight between turns 1 and 2.
- Karts are then to be lowered directly onto the track. Driver interviews will be taking place during this time.
- A horn will blow 120 seconds before the signal to fire engines. This is when all kart stands must be pushed to safety and all but one crew member must exit the track.
- Once engines are started, remaining crew must exit track.

There are no more points... the winners of these races will be named the "2025 Grand National Champions"

Friends and family are welcome to join, but may not touch a competitors kart or give them anything.

Karts and Drivers are still under parc ferme conditions until tech has completed their work.

Thank you to our Racers, Staff and Sponsors.

You all make CKNA great!
